BATTERY-ELECTRIC RENTAL

# Simon 26 ft Electric Scissor Lift

A rental-only personnel platform for appropriate slab and site conditions.

| ≈7.9 m | 340 kg | 26 ft | Electric |
|---|---|---|---|
| MAX. WORKING HEIGHT | PLATFORM CAPACITY | MACHINE CLASS | BATTERY POWER |

## Appropriate applications

- Indoor maintenance and installation
- Approved outdoor use within machine limits
- Slab applications with suitable bearing and level

## Site and operating controls

- Confirm ground, slope, clearance and exclusion zone
- Observe environmental and operating limits
- Complete pre-use checks
- Plan charging and safe cable arrangements
- Use trained and authorised operators

**RENTAL ONLY**

The Simon machine is the initial public scissor-lift offer. Capacity includes people, tools and materials. Confirm the physical machine data plate before use.

## Availability and next step

Available for rental in Gauteng and bordering regions, subject to dates and site suitability. Send working height, environment, site and dates.

## Documentation note

Launch headline values are based on the confirmed Simon rental-machine information. The physical machine data plate and rental handover documentation govern the final specification.

This summary does not replace the supplied manual, machine data plate, site risk assessment, applicable legislation or competent supervision. Manufacturer declarations or CE documents do not by themselves constitute South African approval. Refer to the South African Driven Machinery Regulations and obtain appropriate professional guidance for the application.
