GOODS-ONLY INCLINE LIFT

Solar-Panel Material Ladder

A powered incline lift for secured solar panels and other materials. It must never carry people.

Up to 19 m	200 kg	220–240 V	15 m/min
TRACK LENGTH	RATED CAPACITY	SUPPLY	STANDARD SPEED

Appropriate applications

- Secured solar panels
- Packaged goods and materials suited to the carrier
- Inclined access where the track can be properly supported

Site and operating controls

- Confirm track length, angle, base and upper support
- Use correct load restraint and keep the route clear
- Control loading and landing areas
- Wired or wireless control as supplied

GOODS ONLY — PEOPLE MAY NOT RIDE

The carrier is not a work platform, personnel ladder or means of access. Nobody may stand or travel on it.

Availability and next step

Available for sale and rental, subject to site geometry and availability. Send building height, proposed angle, access, load, power and dates.

Documentation note

Headline values are based on the reviewed solar-panel ladder manual. Permitted geometry and configuration must be confirmed for the supplied equipment and site.

This summary does not replace the supplied manual, machine data plate, site risk assessment, applicable legislation or competent supervision. Manufacturer declarations or CE documents do not by themselves constitute South African approval. Refer to the South African Driven Machinery Regulations and obtain appropriate professional guidance for the application.
